

AYMAR WINES

SPAIN

Aymar is the expression of a grape, a territory and a vintage. It owes its name to an ancestor of ours, Lluïsa Aymar, who, along with her husband at the beginning of the 19th century, already sailed with wine to Havana. After six generations linked to the world of viticulture and wine to doll, we wanted to take a step further in the process of making, bottling wine and wearing bottles with our own brand.
